

Calle.P I PARKEN

Calle.P is something as unique as an established restaurant in the middle of a botanical garden in the middle of a big bubbling city. An oasis where the greenery forms the surroundings

COQUETEL SOCIAL

Our sister-bar Coquetel Social mixes the city's best classic cocktails in an environment that almost has to be seen rather than described. Meet the 60's Rio de Janeiro in the middle of Stureplan.

Calle.P 90-TALET & NU

Calle.P the 90s & NOW
Does Calle.P seem familiar? In the 90's, the restaurant Calle.P housed in the same glass pavilion in Berzelii Park. One of the popular restaurants of the time and a hot hangout before the restaurant closed in the early 2000s. We continue to create encounters between people and build on the legend of Calle.P.

FIG³ *Omskriven pasta*

The pasta served in the restaurant can also be bought to take home directly from us.
